

Diamond Cadet Airline Transport Pilot Programme

Start your dream job

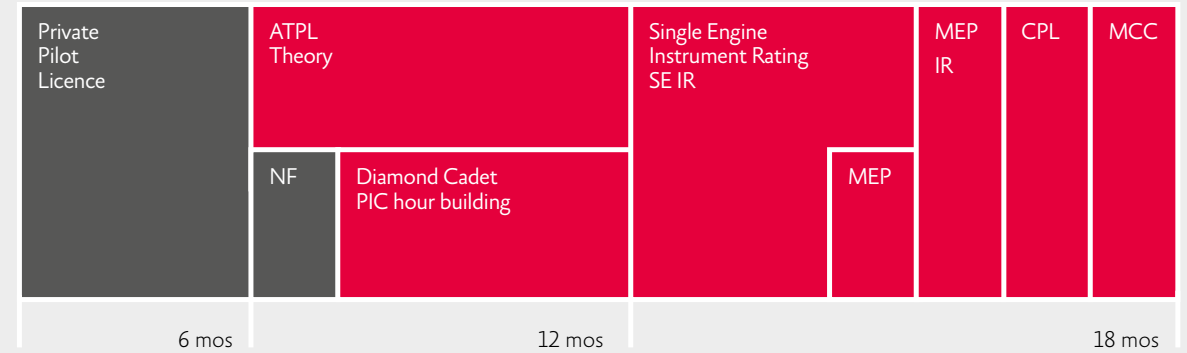

The airline pilot's task is a fascinating one. It requires precision and knowledge, but contrary to common belief, no exceptional prerequisite skills or physical fitness are required. You will need normal eyesight (with or without corrective lenses) and good general health. Most importantly, however, you will need a strong drive and motivation to aim for the skies! If you have what it takes to become the best of the best, you are the person we are looking for!

The Aeropole Diamond Cadet ab-initio ATPL (Airline Transport Pilot License) programme is a full training package with everything you need and it is tailored to suit you as an individual learner. The training will be customized to fit your availability, background and personal skills, knowledge and experience.

Our rigorous selection process, professional flight instructors and state-of-the-art fleet ensure an opportunity for superior training for the best aviators. From your very first training flight, you will be prepared for the demands of the modern glass cockpit environment.

Our course price for your exclusive premium training includes flight lessons, instructional hours, study material, ground school, maps and charts as well as necessary pilot accessories. We will also take care of all paperwork involved with your license. You will only be required to pay third party fees such as the Civil Aviation Authority test and examination fees — nothing else.

Typical study times

APPLICATION PROCESS

for the ATPL programme

1 SUBMIT THE APPLICATION FORM
www.aeropole.fi/atpl

2 INTERVIEW & KNOWLEDGE TESTING

3 MEDICAL EXAMINATION

4 PSYCHOLOGICAL AND APTITUDE TEST

5 SIGNING THE TRAINING AGREEMENT

Applying

We accept students only through applications that have been sent through our website. The application process lasts for approximately three weeks. Courses start on a continuous basis, so you will be able to start your training immediately after successful selection.

For more information

Please have a look at www.aeropole.fi/pro/ or send us a message at info@aeropole.fi. You can also find us on Facebook and on Instagram: @aeropole.

Financing

Before applying, you should acquire funding for your studies. For instance, a favourable decision from your bank or other form of statement of funding or loan guarantees. You are not required to take out the loan, as long as you have confirmed your eligibility to funding before applying. Please contact us to learn more about how to seek out financing for your studies.

Minimum requirements before applying for the programme

Age	Minimum 16 years old.
Language skills	Good (upper intermediate or better) English skills are required and all candidates are tested. You should be able to use English effectively, but need not be perfect. You are almost fluent and your English is very accurate. You can deal with everyday situations in English and can have long conversations and discussions.
Mathematics	Upper secondary school basic syllabus or equivalent is recommended.
Physics	Upper secondary school advanced syllabus or equivalent is recommended.
Health and Physical Condition	Normal health is enough and determined by the aviation medical doctor. Eyeglasses are allowed, as long as the eyesight is normal when corrected with glasses.
Funding	Before taking part on the programme you'll have to demonstrate that you have arranged a satisfactory funding.
Aviation experience	No previous aviation experience is needed. However, prior experience is taken into account when determining your personal syllabus.

Aeropole Ltd

Aeropole is one of the most modern pilot training schools in Nordic Europe. We have provided premium flight training since 2010. We at Aeropole are passionate about providing you with excellent flight training. Our aim is to be the number one flight school in Europe in terms of quality and safety. Our promise to you is to provide superior quality in customer service, training, equipment and personnel.

Our team is here for you. Seasoned aviators, experts in their profession and passionate about teaching. Our girls and guys really know what flying is about. Professional pilots with thousands of flying hours under their belts, our instructors are teaching and safety experts. Each one of us shares a love for flying and teaching. For us, good is just simply not enough. We want to walk together with you on your way to get your wings.

Aeropole headquarters are located in Helsinki, Finland and we operate at several training centres in Northern and Central Europe. Aeropole holds European Aviation Safety Agency Approved Training Organisation approval (EASA ATO) and operates under European aviation regulations.
